

Sharing Lives with Seniors

Shared Lives Plus is taking the UK by storm!

- The shared lives model enables seniors to stay in their homes and/or communities; it also enables persons with developmental disabilities to live full lives in the community.
- Hear stories and research that show shared living can make us healthier and our community stronger
- See how thousands of people across the UK are choosing to open their homes and hearts to each other
- The presenter, Alex Fox, CEO of Shared Lives Plus, was recently named as one of 40 New Radicals in the UK
