Inclusive communities, enriched lives.

Building Caring Communities (BCC)
strengthens community connections
for people with cognitive and
intellectual disabilities.

WHAT WE ARE ABOUT

We believe that by working with BCC, people can grow and develop their sense of self in relation to others, resulting in healthier and more vibrant communities.

We help people to be less lonely, become more independent, and find friendly places.

Through this work, we intend to reduce social isolation, inspire more resilience and encourage communities to welcome and celebrate diversity.

WE COLLABORATE WITH PEOPLE TO

- Have a positive connection to themselves
- Find, develop, and maintain relationships with others
- Broaden and deepen experiences within community
- Make meaningful contributions to their chosen communities

COMMUNITY CONNECTORS PROVIDE OPPORTUNITIES FOR

Skill-Building - Learn and practice the skills to find, make, and keep relationships and connections.

Exploring Community - Connect to meaningful resources, find fun places to be and contribute skills and gifts.

Reflection and Learning - Reflect on experiences in the community connecting journey and help shape what comes next.
