Who We Are

Our mission is to “assist persons with developmental disabilities to lead meaningful and healthy lives by partnering with the community to provide a comprehensive range of person-centred services for individuals and the families who care for them.”

We are committed to building an inclusive community characterized by diversity, hospitality, belonging and respect; where all persons are welcomed and valued for who they are and for the contributions they make.

Our Values

Person-Centred	We are person-centred in our thinking and our actions.
Inclusion	We embrace diversity and believe every person is an equal and valued member of community.
Learning	We encourage innovation, learning and growth.
Excellence	We act ethically and with integrity in all that we do. We celebrate the best in ourselves and others.

Family, Friends & Belonging

We assist individuals and families with navigating life’s transitions to and through adulthood. Working together with the persons we serve, family, friends, other service providers and community partners, we find innovative ways to strengthen our services, ensuring they continue to be a good fit.

Arts & Innovation

At the same time that we try to make our professional services better—more responsive and person-centred, we are also trying to catalyze the power of natural community to care for each other and to celebrate diversity. How do we create more conditions for reciprocity and engagement? How do we embed people who are socially isolated into their neighbourhoods and communities? How do we foster hospitable spaces and natural friendships?
